

# **ZIMBABWE CENTRE FOR HIGH PERFORMANCE COMPUTING**

## **HPC ACCESS GUIDE**

### **Introduction**

Zimbabwe Centre for High Performance Computing (ZCHPC) are the custodians of the National High Performance Computing (HPC)/Supercomputing infrastructure. The main HPC Data Centre is located at University of Zimbabwe, Mt. Pleasant, Harare, and consists of GPU, compute, and storage servers, all accessible via a cloud platform. Researchers can utilise scalable HPC clusters for parallel processing, with offsite data recovery available. Visit <https://zchpc.ac.zw> for more details.

### **Account Application**

Visit <https://zchpc.ac.zw/accountapplication> and submit the required details.

### **Access**

To access the HPC use the link: <https://cloud.zchpc.ac.zw>

### **Support**

To reach the ZCHPC Support Team,

Email [support@zchpc.ac.zw](mailto:support@zchpc.ac.zw) or WhatsApp/Text/Call +263 785 005 163

You may access the user manual on <https://zchpc.ac.zw/usermanual>
